

Group 8:

Names: Seldin Music, Liridon Kozhani, Walid Balegh, Xingchen Lu, Mattias Gustavsson, Abdirahman Duale.

Project Manager: Seldin Music

Product: Web store for Movies.

This is the analysis document with some sketches of the user interface.

Analysis document

Introduction:

The main purpose of this project is to establish a well-designed web store where a customer can visit and order a movie or movies.

The customer must not be registered in the website or anything, it is open for everybody.

General requirements:

1 Show all details of products

1.1 A main page where there are the most popular movies and a list of categories that you can choose between.

1.2 Every movie selected by the customer is defined by an image, description, title, length, date, origin, price, the quantity available for that movie and which category it belongs to.

1.3 An add to basket button will permit the customer to add the movie that he/she is interested in, to the basket.

1.4 If there is no copy available for that movie, the customer will not be able to click add the basket button for that specific movie

1.5 A movie can belong to several categories.

1.6 Each movie has an ID number to keep the ordering process and the admin work easier.

2 Customer mode requirements:

2.1 All movies available will be shown.

2.2 A Search box for finding movies.

2.3 All movies of the category selected will be shown.

2.4 All the information about the movie will appear when a movie is selected.

2.5 The customer will be able to choose the quantity of the movie selected in the basket page.

2.6 The customer must fill in his personal information to finalize the purchase.

2.7 The customer will receive an order number after confirming the purchase.

2.8 The customer will be able to use the order number to see information about the delivering process.

3 Administrator mode requirements:

3.1 The admin must authenticate to access to the admin mode of the website

3.2 The authentication must be done by providing a valid user name and password.

3.3 Once a movie has been ordered the quantity is going to be updated automatically to the database.

3.4 The admin will be able to manage the list of admins, items and the order status of the purchase made by the customer.

3.5 The Admin will be able to modify the list of movies and the information of each movie.

3.6 The admin will be able to manage the ordered items if there is any problem with delivering an item or something related to that.

The admin has the right to see the customer information who made an order and to contact him/her
